

At LIFE, our commitment and purpose is to provide an environment which will foster growth, learning, acceptance, and independence for children in the special needs community. We aim to partner with families and caregivers in assisting unique children to function at the highest level possible.

L.I.F.E. incorporates various therapy modalities such as speech, occupational, physical, and music therapy, as well as habilitation/respite services on site to assist children in reaching developmental, educational, and life skills goals. Our specialized format of professional therapy, alongside fun and creative learning opportunities, will ensure that every child that enters will benefit.

Therapists and habilitators will collaborate regularly in an effort to optimize consistency and success in our programming. But most importantly, each child is nurtured and believed in. It is a thrill and honor to support special needs children in realizing their endless potential...
